

User Stories :

- 1) As a patient, I want to view detailed clinic information so that I can make informed decisions before booking an appointment.
- 2) As a patient, I want to view my booking history so that I can track my appointments.
- 3) As a patient, I want to submit reviews and ratings so that I can share feedback about my clinic experience.
- 4) As a patient, I want to track waiting time so that I can better manage my schedule before my appointment.
- 5) As a staff member, I want to view today's and this week's appointments so that I can manage schedules efficiently.
- 6) As a staff member, I want to mark appointments as completed so that appointment records remain accurate.
- 7) As a staff member, I want to set my availability so that patients can book appointments during available times.
- 8) As a staff member, I want to cancel appointments when necessary so that schedules remain accurate and patients are informed.
- 9) As a staff member, I want to add notes to patient records so that important information is documented properly.
- 10) As a patient, I want a queue management system so that I can monitor appointment flow and reduce waiting time.

User Acceptance Tests :

- 1) Given I am a patient, when I open a clinic profile, then I should see detailed clinic information including services, hours, and contact details.
- 2) Given I am a logged-in patient, when I open my booking history, then I should see all my past and upcoming appointments.
- 3) Given I am a patient with a completed appointment, when I submit a review and rating, then the feedback should be saved successfully.
- 4) Given I am a patient, when I open the waiting time tracker, then I should see my estimated waiting time and queue position.
- 5) Given I am a staff member, when I select a schedule filter, then I should see the correct appointments for today or this week.
- 6) Given I am a staff member, when I mark an appointment as completed, then the appointment status should update successfully.
- 7) Given I am a staff member, when I create or update availability slots, then the availability should be reflected in the booking system.
- 8) Given I am a staff member, when I create or update availability slots, then the availability should be reflected in the booking system.

- 9) Given I am a staff member, when I add a note to a patient record, then the note should be saved with the correct timestamp and author.
- 10) Given I am a patient, when I access the queue management system, then I should see real-time updates of my queue position.
